

# Character Sheet

**Full Name :** Pierre-Antoine Augereau  
**Class:** Geek  
**Level:** 29  
**Alignement:** Neutral Good  
**Mail:** augereau.pa@ekareya.fr  
**Tel:** 06.66.99.76.90  
**Website:** <http://cv.ekareya.fr/>  
**Particularities:** Autism Spectrum Disorder  
**Traits:**  
-Honest & careful  
-Avid & quick Learner  
-Independant

## Background:

Always had a keen interest for sciency stuff. Due to my neuroatypicality, naturally inclined to focus on detail, and very dedicated. Learned to be adaptable by repeatedly overcoming my social anxiety.

**French**

Mother language

**English**

Survived 3 months in the land of the Mighty Burger

**Japanese**

Studied there for 6 weeks

## Education

Middle School monitor

Collège la moulinière, Domène (38)

### Master of Science - Applied Mathematics

Université Joseph Fourier - Grenoble  
Option Geometry, Image & CAD

- Artificial intelligence
- Computational geometry
- Computer graphics
- Computer vision
- Graph theory

Bachelor of Art - English/Japanese

Université de Lille 3  
-1<sup>st</sup> & 2<sup>nd</sup> year

## Experience

### Internship at INRIA

"Visualisation de grands volumes de données océanographiques"

- 6 month internship with the MOISE team
- Developed prototypes for a data visualization software
- Learned to regularly communicate progress & shortcoming
- Refined the specification jointly with the team of physicists

### Data mining tool to rule the game

Js, php, html/css, sql, MVC design

- Programmed a client-side script to extract data from a 4X web game (Empire Universe II)
- Implemented the serverside to gather the data, and a web interface with different tools like pathfinding, planet research, player research.
- Maintained the site for 18 months

### Game creation on a graphic calculator (Casio 65)

Basic, game design, coding.

- Learned to code on my own
- Had to manage very limited resources

# Achievements

### Solved It

*Took me 3 months*

On your own, discover how to solve the rubik's cube

### Ikea Master

Can handle ikea furniture without instruction

### Saw the sunrise

Start a 4X game, and watch the sunrise while playing

### Don't Even Think About It

In Endless Space: Create a custom faction with -195 points or less, and win a game with it on

Endless difficulty *Had to simulate the game in a spreadsheet for the first 20 turns*

*The rightful place for a salad, is inside a burger ;)  
And the rightful place for a burger, is in my stomach.*

Preparation for the secondary school teaching certificate (CAPES)

Université Joseph Fourier - Grenoble

### Bachelor of Science - Mathematics

Université du Havre

-1<sup>st</sup> & 2<sup>nd</sup> year in Mathematics & Computer Science

### French sailing instructor certificate

Les Glénans

### Modding for Kerbal Space Program

Unity 3D, Visual Studio, C#, Blender

### Favorite school projects

**A.I.** 18/20 Java, Processing, graph theory, A\*

- Semester-long project (Game creation)
- Procedural level generation (labyrinth)
- Implementation of Intelligent Agent

**Computer Graphics** 19.5/20 OpenGL, C

- Set "attention to detail" to Crazy
- Modeled every object by hand, totalizing more than 3.000 points (no external tool allowed)

**Scientific visualization** 18.5/20 KML, Java, Processing

- Semester-long team project

### Website creation

Php, html/css, sql

- Made a personal blog from scratch for my trip to Japan.  
<http://blog.ekareya.fr/>

- Implemented a chat interface to play *Loup garou de Thiercelieux* with some friends.  
<http://ekareya.free.fr/loup-garou/>
